SEVENTH ANNUAL PRICE LIST
SPRING, 1920
ALMON S. SAWYER
Mentor, Ohio

FEB 16 1920

Orders. Orders should be sent as soon after receiving this price-list as possible. It will help us in making prompt delivery at planting time.

Terms. One quarter the amount when order is sent, balance before shipment is made. No order will be filled until we receive full amount no matter what your financial standing.

Claims. Claims, if any, must be made immediately upon receipt of stock. No attention will be given claims received after stock has been in purchaser's hands long enough that through neglect it may have perished.

True to Name. While we use every precaution to have all stock true to name, (and we believe we come as near doing this as anyone in the business) and upon proper proof will replace any stock proving otherwise, it is understood and agreed that we will not be held responsible any farther than this.

Location. We are located on the Cleveland-Buffalo highway one mile east of Mentor village. On Electric R. R. between Stop 65 and 66.

Reference. As to our reliability write the Cleveland Trust Company, Painesville, Ohio, enclosing a two cent stamp for reply.

Remarks. Our specialty is strawberry plants. We have for this season the largest and finest stock of plants we have ever grown and one-fourth of them are sold as we write this price list, so do not delay in ordering as we were very short of plants last season and while we have a much larger stock this season we are sure with our increasing business to sell all the plants we have. We will have some other stock in limited quantities not listed herein. A few fruit trees and some cane fruit plants in too small a quantity to list. We have a fine stock of one yr. Grape, some Blackberry plants, Asparagus roots, etc. which we list herein. The other stock we will use in local trade.

CERTIFICATE OF INSPECTION

No. 166

Columbus, Ohio, August 15, 1919

THIS IS TO CERTIFY, That the nursery stock for sale by ALMON S. SAWYER, of Mentor, County of Lake, State of Ohio, consisting of General Nursery Stock has been inspected by a duly authorized inspector, in compliance with Section 1126 General Code, and has been found apparently free from dangerously injurious insects and plant diseases. This certificate granted under the provisions of Section 1135, General Code, is invalid after September 15, 1920, and may be revoked earlier for cause.

E. C. COTTON, Chief of Bureau

N. E. SHAW, Secretary of Agriculture

Strawberries

Strawberry plants should always be shipped by Mail or Express. We will assume no risk on plants shipped by Freight.

Per for perfect, Imp. for imperfect blossoms. An imperfect blossoming variety must be planted near some perfect blossoming variety for purposes of pollenization.

Bubach, Imp.—An old standard sort that is still the leader in some sections. Mid-season.

Brandywine, Per.—Large dark red berries, very firm. Excellent for canning. Late.

Chesepeake, Per.—If this berry would only make plants, it would easily be the leader, at least on soil not too light, of best quality. Firm as an apple and a good yielder of large berries on the few plants it makes. Late.

First Quality, Per.—Our sales of this variety are increasing each year. A vigorous grower, berries are of best quality, fast becoming a standard sort.

Glen Mary, Imp.—On very heavy clay this is undoubtedly the leading market sort, Is not adapted to as great a variety of soils as Sample, but will outyield Sample on clay. On our light soil here Glen Mary is a failure. The yield is good but berries are knotty and green tipped. Late.

Gandy, Imp.—Succeeds only on moist heavy land. Late.

Haverland, Imp.—Old standard sort in cultivation for the past forty years. Is still ahead of some of the most recent introductions we have tried. Mid-season.

Marshall, Per.—Requires high culture, best quality. Late.

Parson's Beauty, Per.—A standard sort, heavy yielder of large berries, which are not firm enough for distant marketing. About as good as any to plant with Sample. Late.

Sample, Imp.—The leading market berry of this vicinity. Of fair quality, firm enough to stand shipment. Large berries. We sell more plants of Sample than any other with Glen Mary a close second.

Sen. Dunlap, Per.—A very popular standard sort in some sections. A good canner. Mid-season.

Warfield, Imp.—Rather small dark colored berry. A popular canner. Mid-season.

Wm. Belt, Per.—Succeeds well on light land. One of our favorites. Late.

Uncle Jim, Per.—The largest berry we grow, too soft to market, but fine for home use. Late.

Progressive, Fall-bearing—The most valuable berry under cultivation today. After producing a fair crop of berries in the Fall on Spring set plants, it is by far the best first early in the June fruiting season and unlike most very early sorts, is the sweetest berry we have ever tasted. So the price of sugar need not discourage you from planting berries if you plant Progressive.

Prices of Strawberry Plants

We have tried to arrange prices so as to be fair to both large and small purchaser. 500 or more plants of two or more varieties must be figured at 100 rate, 1000 plants of two varieties at 500 rate. Hereafter we shall adhere strictly to these rules so if you want to avoid delay please remit according to our rules and prices. We do this on account of the difference in the cost of labor in assembling a mixed order and an order of one sort.

When stock is ordered by mail postage must be advanced. Ask your Postmaster what the rate from your office to Mentor is and figure on following weights.

100 Strawberry plants 4 lbs.

100 Grape vines 10 lbs.

100 Blackberry plants 12 lbs.

100 Asparagus roots 3 to 5 lbs.

**Prices below are for plants
trimmed and tied in neat
bunches of 25, labelled and
packed for shipment and
delivered F. O. B. Mentor.**

**Prices below are for plants
loose dug and counted, pur-
chaser to furnish recepta-
cles and packing and call
here for their plants.**

Prolific	.40	.90			.75		
Progressive	.50	1.25	5.50	10.00	1.10	1.00	9.00

Upon receipt of \$3.90 we will send prepaid to any address 100 of each of the following Bubach, Brandywine, Haverland and Progressive.

Grape Vines

Concord, Blueish-black—The well-known old standard market sort. More largely planted than any other. Can supply Concord in 1 yr. only.

Wordon, Blueish-black—About a week earlier than Concord otherwise much the same. Can supply Wordon in 1 yr. only.

Niagara, White—The leading white grape. Fine quality. Can supply Niagara in 1 yr. only.

Catawba, Red—A late grape of the finest quality. The best for grape juice or jelly. 1 yr. only.
